„Nature Sketching - Adding More Life to Urban Sketches“

mit Danny Hawk am 16.01.2021

Please bring the following materials to your course:

- A watercolor sketchbook or watercolor paper with a weight of at least 200 gsm (e.g. Hahnemühle Watercolor Book in size A4 or A5) landscape or portrait format based on personal preference
 - Please make sure that the paper texture is not too rough so that it can be easily sketched on
- One thin watercolor brush and one thick watercolor brush with round edges (e.g. da Vinci NOVA Synthetics watercolor brushes (series 1570) in size 8 and 12)
 - The thick brush is helpful for larger washes such as skies whereas the thinner brush can be used for details
- Watercolor paint set (a well-rounded palette with roughly 10-12 colors is sufficient - more or less based on personal preference)
- Pencil, eraser and pencil sharpener
- A small container for mixing water
- A rag or tissue for removing excess water from the paintbrush
- A fineliner or fountain pen with waterproof ink
 - If you would like to use a fountain pen, please make sure your ink is especially made for fountain pens, otherwise it may clog
 - Recommendations: Lamy-Safari with De Atramentis document ink, Platinum Carbon Desk Fountain Pen with Platinum Carbon ink cartridges
- Please note: For some fountain pens, an ink converter is necessary

Viel Spaß in Ihrem Kurs!
